## The reception for your success

### Round and oblique!

„Serpenda“, a further furnishing system from KAPPLER which yet again sets new standards. Flexibility, functionality, clear design and top quality merge into an integrated whole.

The wide range of elements makes it possible to use every conceivable room situation perfectly. Materials such as stone, glass, stainless steel, varnish, veneer or plastic coatings mean that all of our receptions are unique and can be tailored to your wishes. IT and multimedia devices are integrated elegantly.

The cable leads are accommodated under the panel in a special duct.

We have also thought of your writing utensils, CDs, diskettes and of course your forms.

# Our silent servants: PREGO, CEO and TRIO cloakrooms.

Competent consultants for office furnishing are not easy to find.

We are happy to give you the right address.

If you wish to view some furnishing examples without entering into any commitment, you are welcome to visit our showrooms.
